

Maintenance Technician

MCD, Inc. is a 100% employee owned Madison based graphics finishing company focused on providing enhanced visual appeal to communication pieces. For over 40 years, the experts at MCD have turned ordinary concepts into extraordinary solutions while providing exceptional customer service, and quality products and services. These attributes continue to define our success and company culture.

We are looking for experienced Maintenance Technicians to join our Second shift operation. Our technicians perform electrical, electronic and mechanical maintenance on all production and auxiliary equipment and facilities. Qualified applicants should possess 1-3 years' experience in machine troubleshooting, electrical repair and preventive maintenance.

Primary Responsibilities

- Maintain, troubleshoot and repair plant and facility equipment in accordance with company procedures.
- Diagnose and read electrical, pneumatic schematics, understand symbols and take corrective action.
- Understand PLC operations and use PLC interface to diagnose problems.
- Performs preventative maintenance inspection on equipment.
- Design and installation of equipment.
- Recommends measures to improve equipment performance and product quality.
- Ability to prioritize projects and multi-task.
- May be required to work overtime with occasional weekend and call-in work.
- Responsible for wiring all machines and building to code.
- Must learn, follow and actively enforce company Lock Out Tag Out procedures.
- Clean and maintain grounds, parking lot and building facilities.
- Complete work orders, records, logs and other written or computer based documents.
- Operate material handling equipment, aerial boom lift or other powered equipment.
- Maintain a clean and safe work environment.
- Perform other duties as assigned.

Qualifications:

- 1+ years of maintenance experience in a manufacturing or printing environment.
- Technical school diploma in related field.
- Experience diagnosing and troubleshooting PLC's.
- Experience with AC/DC motor drive systems.
- Strong electrical, mechanical and pneumatic background.
- Ability to effectively communicate (verbally & written) with peers, management, contractors and vendors.

- Basic understanding of commercial plumbing, HVAC and fire systems.
- Strong judgment and decision making skills.
- Ability to manage multiple complicated priorities/tasks.
- Ability to read and interpret blueprints, schematics, diagrams and other mechanical drawings
- Computer skills including Windows, MAC and Microsoft office.
- Flexibility to respond to after-hour emergencies, to start early, stay late and occasional weekend projects.

MCD offers a competitive salary and benefit package that includes:

- Health, Dental, Vision and Prescription Drug Insurance
- Short & Long Term Disability Insurance
- Flex Spending Plan
- Health Saving Account
- 401(K) Retirement Plan
- Employee Assistance Program
- Paid Holidays
- Paid time off (PTO)
- Tuition Reimbursement
- Employee Stock
- Employee Referral Program

The Maintenance Technician will have to spend up to 8 hours standing or sitting, bending, twisting, turning, using arms and hands for reaching, handling, and manipulating objects, lift items weighing up to 50 pounds, need to climb up and down ladders, scaffolds and other climbing devices to safely perform essential job tasks.

MCD is an equal opportunity employer
